living

LIST OF TYPES

(valid after 2024.07.01)

Please always indicate the following specifications:

MODEL: CL | Vcuben living

WOOD / METAL:

ER | Wild oak rustic black oiled
A | anthracite

LIGHTING:

Lighting
wireless switch

Lighting
with switch

COVER MATERIALS:

(please specify code and colour designation)

LEATHER MONTAN:

LR | reinweiß LW | sahne LO | coco LK | kiesel LA | azurblau LV | cognac LM | stone LP | cenere

LY | ziegelrot LU | caffè LL | oceano LX | burgundy LN | anthrazit LZ | army green LS | schwarz LT | testa di moro

LODEN:

MG | grauweiß MB | basaltgrau MT | tundra Braun

VINTAGE:

VQ | quarz VB | bronze VT | terra VM | moor

CURL:

CN | natur CM | melange CS | steele CO | olive CW | warm grey

CHALET:

CP | perl CK | kiesel

CT | timber CD | dark blue CR | royal red CB | black

CU | umbragrau CV | vidalschwarz

SELECT:

SN | natur SU | umbra SB | basaltbraun SM | mineralblau SK | kupfer SH | honiggelb SS | schwarz

Construction / loading capacities:

Carcase:	table top veneered in genuine wood			
Fronts:	solid wood or coreboard veneered in genuine wood with end-grain edging			
Front glass panels:	toughened safety glass - Parsol gray			
Shelves:	wooden compartments behind wooden doors, glass compartments (Parsol grey) behind transparent front glass panels			
Metal parts / handles:	aluminium or steel, powder-coated			
Drawers:	dovetailed solid wooden drawers (oak) with concealed, easy-action fully extending pull-out			
Tables:	Solid wood frame and top. Top with hard-wearing wood surface made of lacquer-wax mixture with a natural feel.			
Loading capacities:	glass shelves 6 mm:	max. 5 kg	drawers up to 80 cm wide:	max. 10 kg
	wooden shelves:	max. 15 kg	drawers over 80 cm wide:	max. 25 kg
	chairs:	max. 110 kg	wall units:	like article description

Lighting (optional)

All lighting systems are permanently installed and wired into the furniture by VOGLAUER. Each illuminated element has its own control gear or transformer and a main power cable (approx. 2.5 m) with EURO plug.

ON/OFF either by:

- internal mini rocker switch
- wireless switch and dimmer (each furniture element is supplied with its own wireless transmitter handset - (several lights can be programmed to operate from one handset at any later date)

Power/consumption:

LED chains in aluminium channel with opal cover: 7 watts/metre (for all showcase parts)

COB LED strips with continuous phosphor layer: 5 watts/metre (for all other lighting)

Energy consumption labelling: The following applies to all VOGLAUER furniture with lighting: „This product contains a light source of energy efficiency class F“. The light sources and the associated control gear can only be replaced by qualified personnel.

Wood-based materials - indoor climate:

Despite meticulous craftsmanship, wood is a living raw material that reacts to changes in humidity and adapts to the prevailing climate. This may unavoidably result in colour and texture variations, minor cracks, slight warping or open knots. An ideal indoor climate for furniture is between approx. 18-23 °C as well as 45-55 % humidity. To reduce warping or cracks to a minimum, solid wooden furniture should be exposed to the smallest possible fluctuations in temperature or humidity.

Oiled wooden surfaces:

Our hard oil/wax combinations based on vegetable oil meet the highest environmental standards and are on a par with organic products. The oiled surface is breathable and improves the indoor climate. The surface is antistatic, i.e. dust and dirt-repellent.

Care of oiled surface: to maintain the value of oiled furniture from VOGLAUER, re-oiling is recommended every 6-8 months. Apply a thin coat of VOGLAUER care oil („care oil“ - see accessories) with a soft and non-lining cloth, rubbing evenly in the direction of the fibres. Afterwards, polish with a dry cotton cloth. The surface takes on a silky gloss and feels velvety soft.

Furniture cover materials:

- **Loden** fabric made of 100 % pure new wool
- **Vintage** fabric made of 100 % microfibre (PES)
- Sturdy soft **nappa cowhide** with scar pattern and distinctive mill grain.
- **Curl** fabric made of easy-care Q2-Hitex® yarns (74% PAN, 26 % PES)
- **Chalet** fabric made of easy-care Q2-Hitex® yarns (58% PAN, 42 % PES)
- **Select** fabric made from blended fabric (29% PES, 27% PAN, 22% CV, 13% WO, 9%

The production or processing of fabrics and leather involves many work steps which is why slight colour variations in the end product cannot be avoided. It is particularly important to bear this in mind when comparing samples and actual furniture. Puckering is a natural process and therefore no reflection of any reduction in quality. It results from using or stretching of cover materials.

Important planning information:

- To ensure proper fulfilment of the contract, all structural conditions, obstructions, dimensions and loads must be identified when ascertaining what is required.
- Identify the preliminary electrical work that is required for wiring and for connecting appliances (freely suspended lighting systems require surface-mounted or concealed cable ducting solutions). Each illuminated element has a separate mains power cable (approx. 2.5 m) with EURO plug. The mains power connection for lighting (socket, cable outlet) can be provided in the entire rear panel area of cabinet furniture (rear-panel clearance approx. 23 mm).
- Door hinges are nickel-plated and adjustable in 3 directions. However, for exact door fit, it is essential for furniture to be standing on a level and even floor; unevenness can be corrected with adjustable furniture feet.
- All dimensions stated in the product guide are theoretical approximate dimensions and may diverge from actual dimensions, especially as a result of cumulative tolerances. Handle or other insignificant component projections are not included in the overall dimensions.

Installing furniture

On account of the large doors and fully extending drawers, free-standing elements must also be fixed to the wall to prevent them from tipping forward. VOGLAUER supplies the appropriate mounting accessories for solid brickwork or masonry. For stud walls, specialist fitters must obtain suitable wall plugs screws themselves. VOGLAUER assumes no liability for installation!

All furniture is assembled and customised by VOGLAUER at the factory. Bulky furniture can be dismantled for assembly purposes or is delivered in disassembled form. VOGLAUER supplies assembly drawings for furniture that is not assembled.

VOGLAUER furniture quality certificate:

When buying VOGLAUER furniture, the VOGLAUER Furniture Quality Pass is handed over (online download: www.voglauer.com). A comprehensive documentation specifying the 5-year warranty and containing many important information such as instructions for use and care.

	LEATHER CARE			
	200 ml of gentle cleaner and care lotion with light protection, sponge and cloths.  The genuine VOGLAUER leather care set for cleaning leather thoroughly and gently as well as impregnating it. Recommendation: 2 - 4 applications a year.	For removing heavy, non-greasy soiling and dust on the leather. 	Highly effective impregnation and light protection. The leather is re-moisturised, keeping it supple. Delays colour fading. 	For refreshing the leather colour of slightly faded or worn leather. Recommendation: Afterwards, impregnate with care lotion. Specify LEATHER COLOUR.
